Introduction

TODO

Implementation

Mise en place EVE

TODO

EVE and alternate solutions

While installing EVE, please look for the differences between EVE and another alternate solution: GNS3, and document the findings.

TODO

Analyse de l'environnement EVE

Take a look at the tools at the tools and configurations made available by the program.

TODO

Please check the infrastructure and librairies made available by EVE.

TODO

Please check the website of ARISTA, a provider of SDN solutions. Try looking for libraries and extensions that will allow enriching the palette offered by natively by EVE.

TODO

Implement the architecture

TODO

Conclusion
